CHILLINGWORTH ASKS SEATTLE MEN PLAN SUPT. HOLLOWAY ABOUT WAREHOUSES

VOYAGE TO HAWAII

Chamber Of Commerce
May Get Up Trip
Next Year

Secretary Chillingworth introduced the following query in the Senate yesterday morning:

Resolving that the Superintendent of Public Works for the Territory of Hawaii do forthwith furnish the Senate with the following information:

(1) Whether or not the Territory of Hawaii is the owner of or interested in any warehouse, tanks, or other facilities for the storage of oil in the Territory of Hawaii.

(2) If the Territory of Hawaii is the owner of or interested in any warehouses, tanks, or other facilities for the storage of oil in the Territory of Hawaii.

Secretary Wood prepared the following interesting report, which he submitted to the meeting of the Promotion Committee yesterday afternoon:

The event of the week in promotion work has been the visit of Dr. Charles A. Payne of Milwaukee, Wisconsin, in which we wrote the 26th of September, 1906, suggesting that he come to Hawaii in order to secure material for a lecture. Fortunately, Dr. Payne found that he could make the trip before the commencement of his next regular lecture season and through the courtesy of the Oceanic Steamship Company he was enabled to come down by the last Alameda. Though only able to remain until the sailing of the Stern, Dr. Payne can fortunately make a trip to the Volcano of Kilauea and will have time to very thoroughly photograph Honolulu and vicinity. Photographs of other places of interest on Maui, Maui and Hawaii will be supplied by the committee in order that the Doctor's collection of views of Hawaii may be complete. Dr. Payne is a most pleasing speaker and feels sure that the data he is securing will enable him to offer to his audience the maximum of the most interesting lecture that he has ever delivered.

(3) Whether or not the Territory of Hawaii derives any income from the warehouse, tanks or other facilities for the storage of oil situated at Pearl, Honolulu, were erected by the Territory of Hawaii, and if so, under what authority they were so erected and the amount of fund from which the money necessary for their erection and installation was obtained.

(4) Whether or not the lands upon which the warehouse, tanks or other facilities for the storage of oil at Pearl, Honolulu, is the property of the Territorial Government, and if not, the name of the person, firm, corporation or association in which the title to said property is vested.

(5) Whether or not the Territory of Hawaii derives any income from the warehouse, tanks or other facilities for the storage of oil situated at Pearl, and if so, the nature and amount of such income.

GENEALOGY EXPERTS

Editor Evening Bulletin.—An error in the Advertiser of February 18, 1906, sworn in by Mr. Peleholoholi and a Laura Mahelona the great.

It is a true fact this woman never owned an heirloom or relic of royalty, in her life, should new claim what she is not and to which she cannot no date hold herself up to the fire of public opinion especially amongst the Hawaiians.

It seems rather strange and peculiar that at this late day when monarchy is of the past and no more many should want to be known through their Author Laura Mahelona as having past chiefly distinction and yet is news to see so many distinguished people not known to be such formerly but all have become American citizens since.

It is surprising never before known even the days of monarchies when older rules as monarchs and reigns over all the people foreigners included. But has one become known since annexations and later during the month of February 1843 ult. It was quite a coincidence to see and learn of many more now than before.

Pediatric seems to be the main distinction aimed at by heretofore unknown persons whom they have secured my name in their genealogy discussions, as one of their victims to deceive the public. Likewise why no person of common sense would undertake to do what this woman, Mrs. Laura Mahelona having done of late Kamalame who knows the Eas from childhood and even to date respect them as chief by marriage and no more.

We are not aluding to discredit those whose histories are fairly well known but we believe in setting matters of this kind to right so that they will know and even to date respect them as chief by marriage and no more.

A victim.

MRS. MAI-AEA LONO-KAHINE
Honolulu, April 10, 1907.

Patient Doctor, do you think that people are occasionally buried alive? Doctor occasionally buried happens to my patients—Be like Zelma.
